Medical Information

If your child has a medical condition such as Asthma or Anaphylaxis, a medical action plan from their GP must be provided and updated annually.

Medication which is required to be administered during OOSH hours must be presented in an original package with your child's name, medication name and correct information about dosage on it.

OOSH Curriculum

Our program is centred around the 'My Time Our Place' National Framework, created by ACECQA.

"The Framework draws on conclusive international evidence that children learn and develop the skills and behaviours required for active citizenship in a wide range of settings. It has been developed with input from children, families, the school age care sector, academics and the Australian and State and Territory Governments."

Every three years, child care centres are assessed by the governing body, ACECQA. To pass this assessment, centres must pass seven Quality Areas. The current rating is displayed in our Centre.
